EXPERIENCE

Direct Fidoo, Prague — QA Engineer

NOVEMBER 2025 - PRESENT

Test analysis and testing (manual and automated) of the web and mobile Expense Management application for managing company expenses, an Onboarding application for sales reps, and a back-office application for Expense Management customer support. Close collaboration with business, analysts and developers in an agile team at an AI-first fintech company (Claude Code, Figma to Code, ChatGPT). Building custom skills and agents.

Komerční banka a.s., Prague — Test Engineer

MARCH 2024 – OCTOBER 2025

Test analysis, integration testing (manual and automated) of insurance products across various platforms (internet banking, mobile apps - iOS and Android), migrated to a new solution (KB+). Close collaboration with business, analysts and developers in an agile team. Support for penetration tests and addressing security impacts.

Automated testing primarily via internal frameworks built on SOAP and Postman.

Gen Digital Inc., Prague — Software QA Engineer

NOVEMBER 2022 – FEBRUARY 2024

Leading and managing an internal tool for automated e2e testing of email campaigns.

Development of smaller changes (junior level) to this application (Python (Flask), Vue.js, Bootstrap) and its comprehensive testing.
